

Prevention Coalition for Success

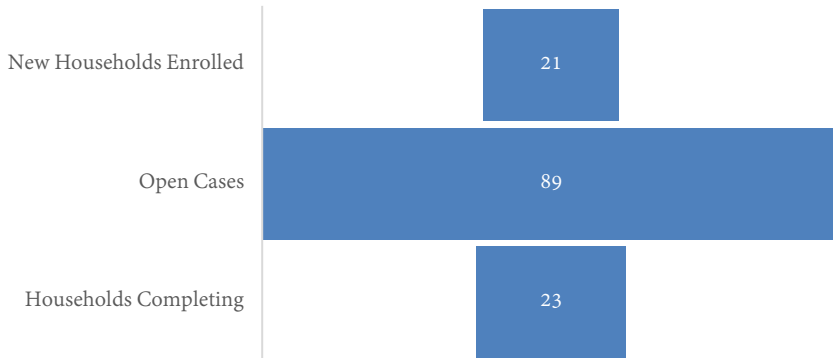

Mid-Year Report

To date, PC4S has served 34 households (66 individuals) through the Family Preservation Initiative. 80% of participating caregivers indicate a significant decrease of family disruption at exit.

Age Demographics of Families Served

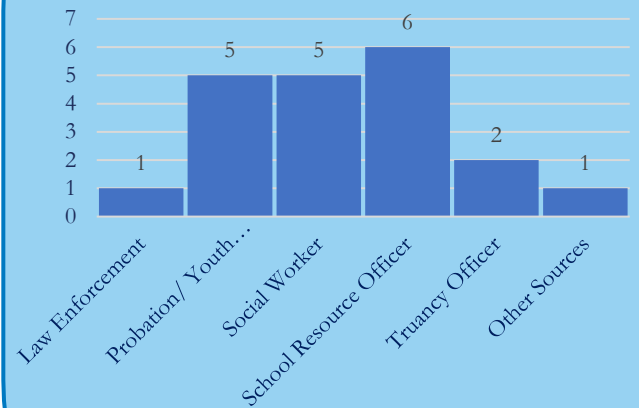

Family Preservation Engagement

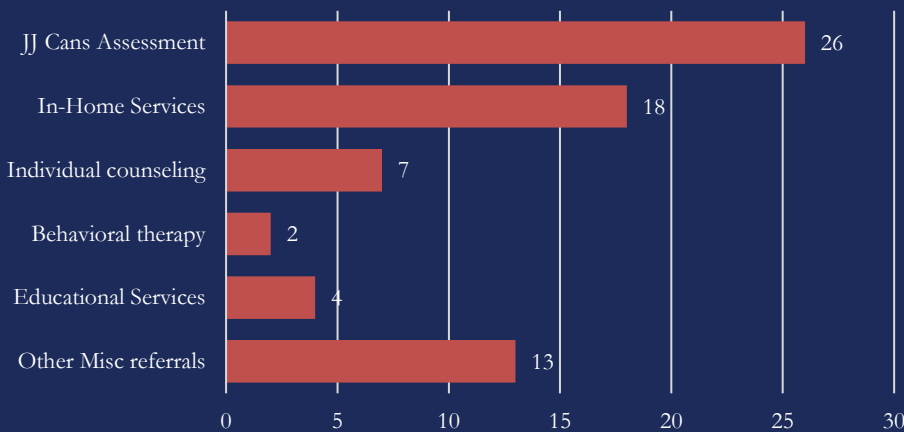

100% of households that completed their Family Preservation programs did so without increased involvement with the justice system AND without further SUD/ODU issues.

Referral Sources to PC4S

Referrals to Family Services

As part of Family Preservation Initiative programming, PC4S makes referrals to supportive services that meet the individualized needs of the participating family. At the mid-year point, PC4S has made 70 referrals to external partners with a 67% success rate of scheduling or attendance by the referred families.
